Richard J. Weaver
Commissioner of Finance

June 6, 2014

The attached report represents a consolidation of Reports of Condition and Income filed by state-chartered banks with the Missouri Division of Finance as of March 31, 2014, and a comparison with the statements filed one year earlier. Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by five from 266 to 261. Six banks merged into other institutions. One new bank charter was granted when a state thrift converted to state-chartered bank.

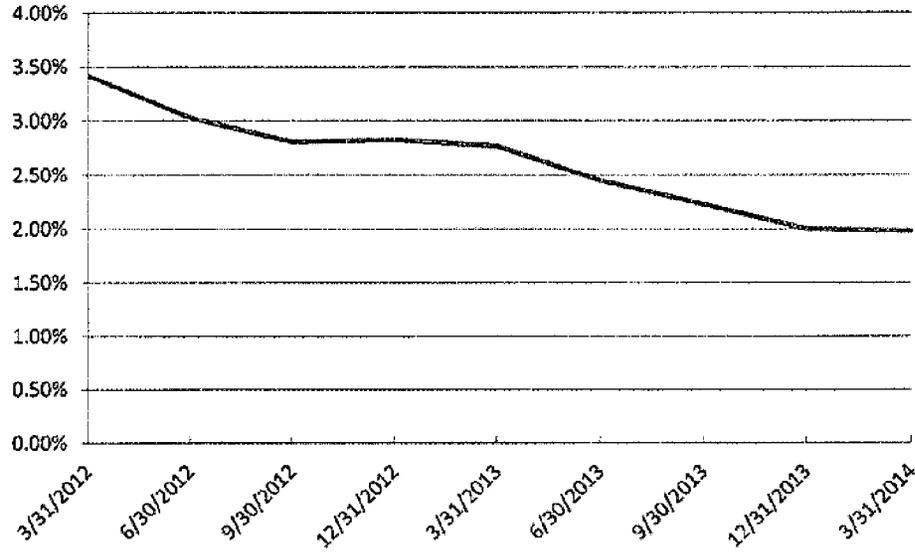

Assets in state-chartered banks totaled \$99.8 billion on March 31, 2014, an increase of 2.9 percent from one year earlier. Deposits were \$84.2 billion and total loans were \$58.8 billion on March 31, 2014, an increase of 3.1 percent and 7.1 percent from one year earlier, respectively. The dollar volume of loans increased nearly \$4 billion, with 185 state chartered banks reporting median loan growth of 6.21 percent. The overall median loan growth rate was 3.93 percent.

The overall condition of Missouri state-chartered banks continues to improve. The attached graphs illustrate improvement in asset quality. Over the past two years loans have grown 8.32 percent and the past due ratio has declined from 3.42 percent to 1.98 percent. The March 31, 2014 return on assets remains stable at 0.97 percent. The median return on assets for state-chartered banks is 0.87 percent as of March 31, 2014. Despite the increased loan volume, the net interest margin has narrowed due to lower yields on loans and investments.

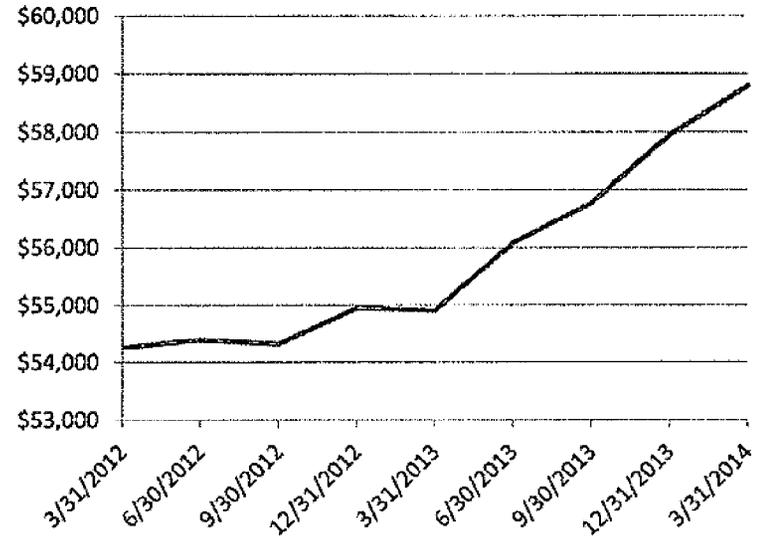

Capital is strong as Equity Capital is 10.02 percent of total assets.
