Commissioner of Finance

December 4, 2009

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of September 30, 2009, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state chartered banks and trust companies decreased by three from 293 to 290. Three banks merged into other institutions. One state chartered bank closed during this period. There was one new bank charter granted when a federal savings bank converted to a state chartered bank.

Assets in state-chartered banks totaled \$79.6 billion on September 30, 2009, an increase of 6.5 percent from one year earlier. Deposits were \$63.8 billion, up 8.4 percent. Total loans were \$54.9 billion on September 30, 2009, up 0.1 percent.

The equity capital ratio decreased to 9.98 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.22 percent. The tangible equity capital ratio decreased to 8.69 percent. Despite these changes, capital remains strong in Missouri banks.

Net income in state banks was down 61.3 percent from September 2008. Return on assets among state-chartered banks was -0.12 percent compared to 0.42 percent in September 2008. The income decline is primarily attributed to three banks. The return on assets for the remaining 280 banks was 0.43 percent. Banks continue to strengthen reserves for the potential adverse effects of the economy on loan portfolios, as Allowances for Loan and Lease Losses now average 2.03 percent of total loans.
